

FAASTeam & New England Office of Runway Safety presents:

# **Let's Not Meet By Accident!**

Why do runway incursions occur? How about runway excursions? These two completely separate reasons will be discussed. This briefing features real events displayed in a dynamic video presentation by Ken MacDonald! The first part of the briefing is designed to bring about an awareness of the hazards we all accept. Then, Ken will discuss strategies to mitigate the risk to an acceptable level. Attend this briefing and participate in a discussion of what's happening at KGON. Arrive at 6pm for refreshments courtesy of the Connie Nappier Chapter of the Black Pilots of America (BPA).

**Directions:** CT-Rt. 1, to State Hwy. 649 to Tower Ave. Please park in the main lot. See map link for directions.

#### **A message from the National FAASafety Team Manager**

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
